

FIXTURES LEND MORE HOPE FOR STREET LIGHTING

Shipment of Globes of New Variety Now Being Installed.

PRESSURE NOT AT FAULT

Gas Co. Officially Say Pressure Was Reduced to Decrease Spoilage.

City Engineer Askwish says that a shipment of long-looked-for lighting fixtures arrived Wednesday. He stated that as soon as possible the lights would be installed or repaired throughout the city. It certainly is a situation that calls for immediate action. There is no one to lay away about something that is irremedial, but if the town's finances permit there is no one thing that is more imperative as both a necessity and an advertisement than an efficient street lighting system. The new globes now available are another experiment, says the city engineer, and are expected to stand the test of vibration and the elements to greater satisfaction. Officials of the Gas Company say that the complaint about the pressure as far as the street lighting is concerned has been met and overcome and that all within their power to do has been done.

Broadway lights were showing up better last night and showed that action had been taken.

There are not one half standards enough to light up the business district alone and if there is no prospect of getting the proposed cluster lights in the near future it would seem that some cheap pipe standards for temporary use sprinkled along more thickly would be a good investment.

Prehistoric Shank Found Imbedded 70 Feet In Farm

Some Ancient Prowler Before Stone Ages Met Water-logs on Land's Place.

Telling with a pick at a depth of 70 feet in a well being dug on the farm of J. A. Landis, west of Redcliff, E. Bucknall unearthed a bone Tuesday which local medical men agree is the ankle joint of some animal, which must have lived in prehistoric ages.

Mr. Bucknall's pick encountered a hard substance and on groping in the dirt he dug up the bone which had been by the pick sharply so as to expose the fibrous character of the bone. The powdery marrow still laid in the center and the joint on the end was as smooth as a billiard ball and appeared as hard.

The theory of the geology of this region is that at some date thousands of years ago a dense tropical growth covered the land. Then some glacial movement, or rush of water is thought to have buried all vegetation and animal life and that for many years afterward the Alberta prairie was the bed of a great inland sea, as shells are frequently found during heavy operations and rocks are found with the imprint of fish well defined in them. Mr. Landis took the bone back with him after showing it to local doctors and to the Review.

Presbyterian Bazaar

The Ladies of the Presbyterian Church have decided to hold a bazaar in the church on November 29. Full particulars will be published in the next issue of the Review.

MONEY BY-LAW FOR FIRE HALL PASSED ALMOST UNANIMOUS

Monday's fire-hall by-law election carried with but one negative ballot cast against it. The vote was very light, a total of 87 being recorded, 80 in the affirmative. This money by-law was put before the city in September and was defeated. It's real purpose may have been slightly misunderstood by some of the ratepayers who were under the impression that the fire-hall matter was disposed of when they voted the erection of the present building last spring. With the addition of equipment, including a hose wagon purchased from Medicine Hat, and also confronted with the necessity of more storage space for city supplies it was decided to increase the appropriation so as to cover the present building and the changes made necessary by conditions that have arisen since the present building was erected.

William Brett is Carried Away by Typhoid Pneumonia

A complication of typhoid and pneumonia of ten days duration carried Mr. William Brett, of Second street, south, to his death Wednesday evening at seven o'clock. Mr. Brett, an employee of the Clay Products Co., has been in bed since the first of the attack, but had gradually weakened. The funeral services were held at two o'clock this afternoon at Robertson's Undertaking Rooms, this city. The interment will be in Medicine Hat.

The deceased is survived by a wife and two boys, sixteen and seven years old. Other than some insurance it is not known that anything else was left to the family. Mr. Brett was 49 years old at the time of his death. A brother-in-law resides in Medicine Hat.

Bring Your Boost for a Hospital

Monday evening the supporters of the hospital movement in Redcliff will meet in the Broom Hall on Third Street at 8 o'clock. As published before there is a \$1,000 now available for the hospital and all those who are interested should show up and get some definite action on the matter.

Sullivan Under Arrest.

The following appeared in this morning's Medicine Hat Times and is confirmed by Es-Chief Sullivan's housewife in this city:—
"Es-Chief of Police Sullivan of Redcliff has been placed under arrest again and brought back from Moose Jaw to stand his trial. He has been employed on the police force at Moose Jaw since leaving Redcliff.

At the time he received his preliminary hearing before Magistrate Kealy on a charge of issuing legal papers without authority, he was committed for trial, but allowed out on bail. His two bail sureties each for \$1,000 have since been withdrawn, and his appearance is the result.

His case will be heard when the criminal court sits here on Nov. 11.

To Locate Here.

J. H. Magee and family, of Edmonton, are registered at the Laurel Hotel and planning to make their home in Redcliff. Mr. Magee has considerable property here and will enter the real estate business this winter. He is trying to get a suitable home at the present time. The family has been in Ontario all summer, touring the province by automobile. There are two children.

RETAIL MERCHANTS' ASSOCIATION AND WIDESPREAD ADVERTISING WOULD DRAW OUTLYING TRADE

Local Market Could Be Widened Greatly by Going After Business Naturally Tributary to Redcliff; Rancher Says Not One Sign or Advertising Method Used in North to Draw Trade Here Instead of to Hat.

That Redcliff should be getting the farmers' and ranchers' trade from points as far as 40 miles north of Redcliff on the Saskatchewan river and off toward Empress is evident from a conversation Representative had Wednesday with a rancher, Ed. Hubbel, who was in the city doing a little trading.

With an advantage of about five miles in distance and far better roads, avoiding the heavy haul on the grades that cannot be circumvented in entering Medicine Hat, there is no reason why any of the trade should be lost if the merchants went after it. Redcliff retail stores are, or should be, on a par as far as prices are concerned, with the Medicine Hat establishments. In quality and variety they are, generally speaking, equal to the stores in the state city.

Not a sign of an advertising nature of Redcliff stores is in evidence on any road or trail in all of the country to the north, said this representative.

WILL SUPPLY GAS TO ENTIRE CITY AT ONCE

Two And One Half Miles of Mains Arrive. Equal Amount Coming.

GAS BUILDING DONE

Interior Finishing in Progress; High Pressure Main Going in.

Mr. R. Wray, of the Gas and Light Co., made the statement Wednesday that he expects within a week or ten days to have the South End town connected up to the new gas well on the river bank and supplied with a uniform pressure equal to what the rest of the city is enjoying. Two and one-half miles of gas mains were in Medicine Hat at that time and awaiting only customs formalities for delivery here. An equal amount is also in transit now.

Mr. Wray said that he hoped to accomplish additional work, mapped out for the year to the extent of 20,340 feet of main or five miles more in round numbers. A high pressure main is being laid from the well on the East Side up to the plant of the Clay Products Co. A zig-zag main is also being laid from the same well up through Lookwood crossing out on Mitchell street near the C. P. R. depot.

The Gas Light building on Third street will be ready for occupancy in about a week. The plasterers are finishing and will give way to men who will complete the interior work. Mr. Wheeler, as President of the Gas and Light Co., will occupy the front office. Mr. Wray, superintendent, will have an office adjoining the large waiting room for the general public and Mr. Keen will have the meter office. The rest of the building is for storage purposes. The Gas Co. will rent the rest of the Stomer Agencies building for storage purposes also.

NO LOVE WASTED IN THIS SQUABBLE

School Trustee Convicted of Giving Brown a Thanks-giving Slap.

Waxing wroth over a subject so prone as country school debentures Trustee Page, of the Bowell district school board, slapped his obstinate opponent in the discussion, Brown by name, on Thanksgiving day it is understood through an airing of the affair in the local police court, and accordingly had to pay a fine of 83, and the costs of the case, which could not have been nominal, as the witnesses were brought in from the country and legal advice obtained from the Hat.

Page became incensed at Brown during the wrangle for some reason and assaulted him. It is alleged Brown procured counsel in Attorney Clow of Redcliff and Page employed Barrister Bell. Magistrate Henderson brought in the verdict.

CITY DISPOSES OF A \$50,000 SLICE OF BONDS

More Money Soon in Circulation With Payment of Local Debts.

DEBENTURES BEING PRINTED

Mayor Danzel Camping on Trail of Lithograph Press, to Rush Matter to Press.

Wednesday night a sale was consummated with the Wood-Gundy firm of "hood" brokers placing another portion of Redcliff's \$100,000 issue of waterworks extension debentures. This week's sale of \$50,000 in bonds in addition to the \$20,000 sold last night and \$30,000 of the issue.

The sale means almost immediate payment of the city's water notes and various obligations for supplies and will put a volume of money in circulation locally that will be no tickle in the retail trade. The Wood Gundy people promise to deliver the money as soon as the debentures are printed and in their hands, and the city's banking house likewise will extend further credit when the city takes up the notes to the bank issued last spring.

To expedite the workings of the machinery to avoid red tape and get the money at once Mayor Danzel has gone east to Winnipeg, where the debentures are being printed in folio, and will be on the ground so as to explain any doubtful points that otherwise would be the cause of considerable delay. Following the printing the money will be manipulated as afore-stated one of the first to benefit being the school board, which is clamoring for its share of the taxes and which the city will again realize by the collection of \$40,000 in unpaid taxes.

Return Your Tickets.

To the customers of the Broadway Department Store. If you are saving the 25c. purchase tickets for the Piano draw and have twenty of the tickets, kindly return them and receive your draw ticket for the Piano. The store has some 1,400 small tickets out now and you would greatly oblige the Store by returning them, for future use.

For the benefit of those who have not heard of the Broadway Department Store's great offer read their ad on the last page of this issue.

SUIT CASE FIND HAS ASSORTMENT LIKE YEGGMAN'S

Kit of Sledges, Cold Chisels and Masculine and Feminine Attire.

IT LOOKS LIKE PLUNDER

No Solution for Find Made by Boys Under Sixth Street Building.

Another link in the chain of robberies which has baffled the police the last month was forged for police solution last Sunday when two boys who were playing at the public auto garage of F. F. McBride & Co. near the depot, discovered a suit case under the building and dragged it out. The boys disclaim any knowledge of the case and how it came there, stating simply that they were playing and happened to notice the suit case under the garage, and while in the act of pulling it out were collared by men.

The contents of the case looked like those of a second story worker and a male carrier. There were cold chisels, screw drivers, a heavy sled hammer, wire, ball-bearing casings, and there were men's wear, hosiery, handkerchiefs, ladies gloves, etc.—an almost impossible assortment of things for the ordinary harmless individual to be carrying around.

A handkerchief in the case carried the name of Hargrave, some tools the name of Davis, and the boys learned the initials of the "H. M. Pacific Railroad.

When the two boys were questioned last Sunday one refused to divulge his name and the other gave the fictitious name of John Ogogod. Yet nothing could be gleaned from the boys as to where the case came from. Chief Reynolds is certain that it is no ordinary theft, as the contents of the case are not those that the average layman would carry about.

Chief Reynolds says that in future cases where parents are aware of certain things that their boys have come in contact with that are necessarily and so potentially dangerous to look into, that they would do well to give the police department the benefit of this knowledge at once, both to aid the department and to avoid entangling affairs themselves.

New School Ready To Be Turned Over

One room in the new school building will be opened next Monday, unless a teacher, Miss McArthur, now in Saskatchewan, fails to arrive to take charge of the class. More rooms will be opened as necessary and so on, until the new school is ready to receive the first of the large new school will take care of the overflow immediately in sight.

The new building was started in July and although the land brokers with whom the Local Board contracted have caused them no little annoyance, yet the construction work has gone steadily along, and the new improvements represent an expenditure of about \$15,000, in round figures.

NOTICE

In order to make alterations in water mains near the bank the water will be shut off from the Town of Redcliff for a few hours. This does not include the National Hotel.

J. E. ASKWITH
Town Engineer.

SAMUEL HAS A GOOD WORD FOR CAN.

Toronto, Oct. 27. Postmaster General Samuel arrived here tonight after an absence of nine weeks. Giving a graphic account of his visit to the Dominion, Mr. Samuel said the feature of his trip that impressed him most was the degree of development in western cities.

"I had expected to find," he said, "at least, remote towns bearing the marks of hastily created civil communities, with badly paved roads, unlighted streets, and ramshackle public buildings. On the contrary, although their growth has been a matter of very few years, they all provided themselves with many miles of admirably laid out roads, with adequate sewerage, water and lighting systems, well equipped schools, and really splendid public buildings."

The best feature of all is that these communities take great pains in planning their towns which, in their picturesque and utility, leave our English cities far behind.

"The impression I received of the working classes throughout my tour is that, on the whole, they are prosperous. The sole unemployment existed in the west on account of the recent financial stringency. Those conditions, however, were passing away in consequence of a very bountiful harvest which has done much to restore the financial equilibrium."

Mr. Samuel spoke in the highest terms of praise of that admirable institution known as the Canadian club. Speaking on the question of naval defence, he said he was particularly struck by the imperial sentiment which prevails with a desire for a closer union with the mother country.

"I feel sure," he added, "that ministers of whatever party may be in power, would be well advised when opportunities offer to go and see these vast new provinces of the Empire. The people of Canada are full of deep pride in their country and of boundless confidence in its future, and at the same time they are animated in east and west by the warmest sentiments of attachment to the empire as a whole."

SERVICE IS REARRANGED

Changed Time of Evening Eastbound Affects Red-cliff People Most.

On Sunday night a new C. P. R. train schedule went into effect by which one eastbound train disappears as far as Redcliff is concerned, and the arriving time of all other trains at the local station is more or less altered.

The early morning through train to the east, No. 62, will pass up Redcliff henceforth, as there is little pick-up traffic at that hour. No. 4, the train which takes so many Redcliff people to the Hat, has dropped back from 7.30 to 8.19, and evening visitors at the Hat will have to plan an earlier return also, as the westbound train which formerly left Medicine Hat at 12.35 a. m. has been stricken off, but its place will be filled by No. 13, a through train which leaves the Hat at about 11.20 p. m. The morning train west drops back from 6.48 to 7.03, while the westbound mail train also drops back from 12.32 to 12.46.

The only change in the mail closing that is effected by the new schedule is that of the noon westbound mail from 11.45 to 12.15 p. m.

For good buys on Broadway see the adway Specialists, J. L. Co.

Measures Carried by 1913 Legislature

Among the outstanding measures acted upon during the session of the legislature that closed Saturday were:

Announcement of the agreement with J. D. McArthur providing for the construction of the A. & G. W. railway.

Guaranteeing of railway lands on lines already constructed at \$25,000 per mile.

Approval of city charters for Calgary, Edmonton, Lethbridge, Medicine Hat and Red Dyer.

Increased motor license fees; doubled license fees and increase in company registration fees.

New corporation taxes; one-half percent of gross income of loan mortgages and trust companies; 40 cents on each thousand dollars invested by land companies; and one percent of the gross annual income of express and telegraph companies.

Calgary city council authorized to make agreements with owners of subdivided lands within the city limits who protested against their taxes.

Rejection of bill providing for the transfer to the Dominion government of the

remains of the Mevate Park site for the Calgary armory. Imposition of five per cent. unearned increment tax. Agreement with Cooperative Elevator Company for the construction of elevators, with grant of \$300,000.

FRIDAY, OCTOBER 31, 1913.

"A FAR-SIGHTED COUNCIL"

The above is the caption of an editorial appearing in the Medicine Hat Times of Wednesday which goes on to expatiate on the matchless attributes and inducements that the city has to offer to prospective manufacturers. It does very well to dilate on such things to the uninformed, but has Medicine Hat 1,200 acres of land to give to manufacturers? Where is it? She has 640 acres across the river from Redcliff, four miles from the city. The remainder of the 1,200 acres is comprised in the Government Experimental farm, lying contiguous to the Redcliff east city limits, as we understand it. This land is government property and far from owned by the city of Medicine Hat. The Times might call attention to the fact that the government offered this land to the Hat if the city would turn around and procure another location for the farm, to give to the government, equally suitable with the present from all points of view.

Now the city of Medicine Hat, spoken of as a municipal corporation, is powerless to bonus industries henceforth, as every city in the province alike is. But it was enacted in the legislature at the close of the last session that a city already purchased by a city for housing purposes could be sold to manufacturers at the purchase price paid by the city. In addition to this cost to future manufacturers coming into the Hat they must pay a gas rate of three cents per cubic thousand.

Now on the contrary and to offset Medicine Hat's glowing inducements the original town-site owners of Redcliff, who are now negotiating with several big manufacturers who are contemplating locating here are prepared to give far more desirable sites cost free and furnish free gas. The disparity in the inducements of the two cities is striking.

Redcliff hasn't had any municipal traction troubles yet anyway. City affairs are some times manipulated in a very peculiar fashion, but we'll hope present or future city fathers won't go so far as to make a blunder such as the press reports of the Moose Jaw administration in digging a subway that the cars for which it was built cannot go through.

Re the bills and oblations which the town is under to local merchants it goes without saying that as soon as the town can lay its fingers on money that it can call its own the place for it to go is to local creditors for the dual reason that the money is needed in local circulation right now during the stringency and to retain the good will of its present creditors to fall back on on later occasions.

A trunk sewer such as the council dwelled on in discussion a week ago is something very timely to take up right now. When the snow melted last spring it was time to talk sanitation. It took all summer to get it and it is no fault of Redcliff that she did not have a serious typhoid epidemic. With increased population the situation will be even worse. By the delay in getting pipe, couplings, etc. this year it would be wise to get action on something in a preparatory stage in this quiet period before everyone is imprudent with the carelessness of a boom period.

A case of a husband's neglect of his wife and little babies in Redcliff reported at Council meeting calls to mind a necessity that will sooner or later have to be provided for—some sort of organized local charities. People who are best acquainted with such work should bring forward some solution. At the present time it would seem that the churches, if they would join hands, would be best able to cope with the situation.

As long as she refrains from inciting to riot, arson or other disturbance at variance with law and order Mrs. Equimline Pankhurst should have a free key to any part of the United States whether she might see fit to go, and had the northern republic denied it to her the opprobrium of all free thinkers of the world would have fallen on the nation.

The Presby-Lian Church

The congregation meets for worship in the church at 11 forenoon, and in the Empress Theatre at 7.30 evening. The morning discourse will be on "Twenty-five years in Honan, China;" and the evening on "A living dog versus a dead lion."

Sabbath School at 2.30 and Union Bible class at 3.30 p. m. On Wednesday evening a bright, edifying service is held at 8 o'clock. The Ladies Aid meets on Thursdays at 2.30; and the choir at 8 p. m.

Brick Go Through Fire Before they Go to You.

They are made from clay and the clay is burned in a heat that averages 2300 degrees Fahrenheit—a heat far greater than any fire they will ever be called upon to pass through in the walls of your house.

This is what makes Brick Fire-proof.
That is what makes Brick Frost-proof.
That is what makes Brick Impenetrable.

Build Your Home of Brick-IT'S ECONOMY
True economy not only takes in the first cost but the cost that is to come. Brick houses of average construction cost but a few dollars more than lumber or stucco—say \$150 on a \$3,500 house. But when they are erected cost stops. There are no repairs to be figured on. There is no painting to be counted in every 3 or 4 years. There is no depreciation in price—consequently your house will sell for what it cost you, plus the increase of the value of your lot in the meanwhile. There is a reduction in the insurance rate of 37 1/2 per cent over concrete or stucco and more than 50 per cent over lumber. There is a reduction in fuel bills because brick keeps out the frost in winter. There is comfort for all summer because brick keeps out the heat. And above all you can borrow more money from your bank on a brick house ten years after it is constructed than you can on a lumber or concrete of the same value in the same period of time. When you build, build for true economy.

Outlook Brighter Here Than East

U. S. Grant, Fresh From Saskatchewan, Says Money Conditions Better Here.

More than ever, impressed with the stability of Redcliff, Mr. U. S. Grant returned to the city a few days ago from his Saskatchewan farm near Weyburn. He says that without a single exception Redcliff is at the top of Western Canada's prosperity ladder this year, relatively speaking. The farmers harvested a tremendous crop this year in the sister province says Mr. Grant, but they have been compelled to accept the elevator men's prices averaging 60 cents a bushel. Consequently there is not the local money in circulation east of Redcliff that was expected. Everything is on a cash basis, says Mr. Grant, and the farmers are being held under the thumb to clean up last year's accounts. In Redcliff for its size Mr. Grant believes there is much more money in circulation with the steady pay-roll existing here as no long time merchandising debts have been carried.

Church of England.
Choir practice will be held this evening at 8 p. m.

Tomorrow is All Saints Day. Sunday, holy communion will be at 11 a. m. and Sunday school at 2.30 p. m. Evensong is in Maple hall at 7.30 with a special sermon for All Saints day. Next Wednesday the Women's Auxillary will meet at Mrs. Lydiate's, Fifth street; a full attendance is requested.

Employers of Labor should be protected by Liability Insurance. Let J. L. Landis & Co. write you a policy in a good strong company.

Screaming Makeups Are Being Prepared for Tonight's Ball

Masquerade Affair Will
Bring Out Ingenuity
of the Fun-Makers.

Tonight's Halloween Entre Nous ball will be a big laugh in costumes, according to just a few hints and remarks that have been let drop around about some of the make-ups being arranged. It wouldn't be nice to say any more because the boys want to keep it all absolutely on the "Q. T." but suffice it to say that cloths will not be the most laughter provoking costumes seen anyway.

It seems that all the young people in Redcliff are going to try to outdo one another. The girls are going in little coteries and don't want any of the boys to call for them to escort them to the dance so they are apparently not to be left behind in the costumeing either. The Empire theater, where the dance is to hold, is being decorated by the club members today as it was on a previous occasion, and all preparations have been made for the largest attended dance of the season. A Medicine Hat orchestra has been arranged for.

Christmas Bazaar.

The Ladies Aid of the Baptist church will hold a Christmas Bazaar Dec. 9th. Many Christmas

(Continued)

Oh, you are simply marvellous through and through, declared Doris and took breath off in disgust.

If Doris had seen with what agitation Joan paced up and down the room after she had left her, she might have changed her opinion of Joan's marvellous qualities. Was it no plain Joan asked herself with a terrible agitation, that others could see that light in Edward Thorold's eyes? Had some one perhaps seen him stoop his tall head and print his burning lips upon her hand—her hand that had never seemed to her the same since then? It was all folly, she told herself with bitterness, for what could she ever do to him, or what could she ever tell him of her, who had never seen him in the light of her acquaintance by speaking to her of that lovely house upon the downs? How could she ever mention the taste of the wine with which she had been and an upright man? There was her mother, too, how could she tell him of her mother's face, which she was so much aroused by the sound of her father's voice in the chamber?

I was not in safety, neither had I to go, neither was I quiet, yet trouble came, she quoted to herself with bitterness, and there she went out into the hall.

Will you come in here? she said to her father, I wish to speak to you, Mr. Durand looked at her sharply. There was something in her voice that impressed him with a sense of danger, but his countenance was only the most mocking smile of the chamber to the room after her.

We went to Lady Martin's hall, she began eagerly.

And I trust that you enjoyed it, he returned.

What was there, she continued, Lady Martin was so kind, and I was taken.

I have said, he said with a sudden start, that you are not going to confound me with your father.

On father, cried Joan, immeasurably stung, how can you mock me so? Why, I am sure, I apologise to you with his civil smile, if I hurt your feelings at all, but really my regret in introducing the subject seemed really like a confession. "What was it you wished to say to me?"

Oh, nothing, she answered sweetly. I have changed my mind, and I will say very much to you again.

You know I am afraid of you very ill,"

"I will be better soon, answered Dorand with a careless shrug of his shoulders.

You know, Joan went on, that Mr. Thorold has some knowledge of the house on the downs.

This was unexpected, and Joan's face pale perceptibly.

What has been saying to you, Mr. Thorold told him anything? he asked sternly.

He told me he saw my photograph there, Joan answered, I did not say anything.

Then you had better not, Dorand muttered with a dark threat in his eyes. I hope the fool is not going to be troublesome. He added that the things were settling down slowly.

In Mr. Frank's and Mr. Thorold's? Joan went on in the same abrupt way.

Here was a second unexpected and disturbing question, and once more Dorand's face shone with a gleam of pleasure.

Upon my word, Joan, he said, you seem in an invulnerable mood this morning. So far as I know, Mr. Thorold has no objection to my seeing his photograph.

What has been saying to you, Mr. Thorold told him anything? he asked sternly.

He told me he saw my photograph there, Joan answered, I did not say anything.

Then you had better not, Dorand muttered with a dark threat in his eyes. I hope the fool is not going to be troublesome. He added that the things were settling down slowly.

In Mr. Frank's and Mr. Thorold's? Joan went on in the same abrupt way.

Here was a second unexpected and disturbing question, and once more Dorand's face shone with a gleam of pleasure.

Upon my word, Joan, he said, you seem in an invulnerable mood this morning. So far as I know, Mr. Thorold has no objection to my seeing his photograph.

Thorold and young Frank. He is not there. Why do you ask?

Because, she answered, I wish to know where Mr. Frank is now. This was the most unexpected question of all, and Thorold's face grew ghastly. A moment or two passed and he answered: "There is no Frank here. My girl—you had best be careful."

And you also, Joan answered slowly, as it is in my mind that these questions I am asking you, and you do not seem to like it, Mr. Thorold also may mean to put you to the test.

Racoonally, said his limp so prominently, that it seemed he was with some difficulty, Dorand went out of the room. When he came back in a few moments his face was flushed and he brought an armload of brandy with him.

Now my girl, he said, what's all this? You want to know where young Mr. Frank is, Joan replied. I believe you want to know where he is.

When I asked to go to that house on the downs it was because I wished to make certain that what was going on, told you frankly I believed you and your friends were playing cards with him and cheating him out of large sums of money. I am afraid that some of my suspicions were right. I mean to go to him, or what could she ever tell him of her, who had never seen him in the light of her acquaintance by speaking to her of that lovely house upon the downs?

How could she ever mention the taste of the wine with which she had been and an upright man? There was her mother, too, how could she tell him of her mother's face, which she was so much aroused by the sound of her father's voice in the chamber?

I was not in safety, neither had I to go, neither was I quiet, yet trouble came, she quoted to herself with bitterness, and there she went out into the hall.

ASK YOUR DEALER.

Of the fact that Mr. Edward Thorold had offered a reward for the recovery of his brother's body, so that it seemed to her certain that he at least believed that his brother had been drowned.

Are you now satisfied, Mr. Durand inquired in his sweetest voice, that you have been doing as innocent man who happens also to be your father's enemy?

It seems so—so seems so, she said slowly.

(To be Continued)

Water in the Farmer's House—One of the features of life on the prairie is the necessity of having a water supply in the house.

The experiments at Hampton Roads showed that the vibrations made by the ship's machinery, a distance of 600 feet. Naval officers believe that the ship's machinery, a distance of 600 feet.

Christian Berger, an Australian, is attempting to get the Australian Government to make tests of it. But the Australian Government has refused to do so.

The most popular type of country car is the simple, consisting of a light body, a light chassis, and a light engine.

It is quite simple, consisting of a light body, a light chassis, and a light engine. It is quite simple, consisting of a light body, a light chassis, and a light engine.

While it is impossible to give an exact figure, it is estimated that the improvement without going carefully over the place, gets up to 100 per cent.

Notables Coming To Church Bazaar

Lord Bishop of Diocese and Pingle, M. P., Expected to be Present.

The arrangements for the big English Church Bazaar and Concert which has been fixed for Tuesday, November 11, to be held in the Maple Hall, Redcliff, are practically complete. Beautiful fancy goods of varied description are pouring in and the stalls will be loaded with attractive and choice things. A splendid opportunity will be afforded for getting Christmas presents in good time.

The home cooking stall, too, will have a very large stock of the daintiest and most tempting delicacies. The home made candy stall will be worth a visit also. Afternoon tea will be served and music will be provided during the afternoon.

The Lord Bishop of the Diocese has kindly promised to open the Bazaar. The concert at 8 p. m. will consist of a very strong program of the best available talent in the two cities and will include a few well known ballads.

F. S. Pingle, M. P., is expected to open the concert. A chandelier will follow the concert. Final details will be given next week.

Provincial Officers Here to Direct Sewer Preparations

In order to be in readiness to start work this winter for sewer work in Redcliff next spring preparations are now being made for a complete diagram of the levels and topography of the vicinity of Redcliff to be submitted to the Provincial Health Officer and Sanitary Engineer for approval. Both of these gentlemen, Mr. Laidlaw and R. B. Owens of Edmonton, were in Redcliff yesterday and were taken over the city in automobiles. They gave Town Engineer Askwith pointers on what would conform with governmental requirements.

Nova Scotians Choose Redcliff.
Hon. W. H. Owen, member of the Legislative Council of Nova Scotia, his brother, Daniel M. Owen, of Halifax, and a third brother, were in Redcliff Wednesday and yesterday making investments.

BREVITIES

Mr. and Mrs. J. A. Flath are the parents of a bouncing new arrival, a boy. Mr. Flath says that the young one is doing fine and we take it that he will soon be able to kick his dad. Congratulations are in order.

Mr. S. N. Knechtel goes down to the eastern provinces this week on his private business arrangements.

Mrs. W. H. Shewin will remain in southern Oregon for some time, and Mr. Shewin a few days ago.

Mr. M. L. Singalar returned from Saskatchewan last Saturday in time for a five winter's work, and says he's going to start something in a few days.

Moore, A. W. Swanson and J. L. Laidlaw were back in Redcliff from the old fields Monday.

Miss Nell Holmes, who until last Saturday was employed with the Dominion Glass Co. has taken a position in Medicine Hat, but hopes to return to Redcliff at a not very distant date.

Mr. Tuppen of the firm of Gibson and Tuppen is building a dwelling on Third street for his own use.

Mr. David Hold has purchased the home of G. B. Somers, the barber, who returned a week ago to Thessalon, Ont.

R. J. Bott has returned from Calgary.

Dr. E. B. Stoner is planning to leave with his family for California before long.

J. G. Douglas, of the firm recently known as Bonnar & Douglas, returned Wednesday from Edmonton. He is reopening the Seventh street store and plans to stay in the business.

The Union Bible club is planning a social evening for Nov. 10th. There were 68 present last Sunday.

Redcliff Incorporation.
"Redcliff Properties Company, Limited, is the incorporated title of the only new local concern, filing articles of incorporation at Edmonton as reported in the Alberta Gazette, a government publication. The company is reported with a capitalization of \$15,000, and with its head office at Redcliff.

Record Oat Yield.
According to the officials of the Calgary grain exchange, George Jackson, of Strathmore, has this record oat crop in the Province, averaging 130 bushels to the acre.

Men's Christian League

The campaign for the necessary funds to fit up the club room is still in full swing. Last Sunday about ninety dollars was reported by the finance committee and the prospects for raising the rest of the funds seems very promising. The program committee have, also been busy, and have secured some very good speakers for the near future from out of town. Mr. Hector Long, of the Lang Investment Co. of Medicine Hat will speak Sunday afternoon Nov. 9th. Do not fail to hear him. This coming Sunday Mr. Hinkle will address the men on the subject: "Trifling with God." There will be special music.

Auto Bus Laid Up

The Redcliff-Hat automobile omnibus has not been running all this week on account of changes which it is undergoing. The driver's seat is being changed in to a cab similar to the remainder of the car, so that the chauffeur will not be exposed to the wintry winds.

JUST A LITTLE HUMOR.

It is the greatest tubbake in the world to imagine that all the actresses are on the stage.

"I loved Aunt Jane criticizing my ball dress scandalously." "She had very little to talk about."

"Wise men make proverbs and fools quote them." "observed A. "That's no secret B. "By the way, who was the author of that one?"

Scene—Swell hotel—Wife (as the singer is passed)—Use the tonic, William. "Bill (from way back)—Taint 'st, is it."

"What is the use of this article?" asked the shopper. "I really don't know," replied the clerk. "I think it is intended to be sold for a birthday present."

Harvest Festival Success.

The festival services held by the Church of England at Maple Hall last Sunday were fully the success anticipated. The hall was very artistically decorated by Medesara Works and Ferguson, and Mr. Hope, Members of the Medicine Hat choir kindly helped with the musical part of the service. There was a large attendance and good contributions.

For fire insurance in good strong companies see J. L. Laidlaw & Co.
